

# Major and complex loss

*When major and complex losses happen, there isn't time to lose while a claim is settled. Our team brings expertise, experience, world-class advice and cost-effective, fair claims handling to get your business up and running as quickly as possible.*

## Comprehensive claims service

Large-scale, major losses are by their very nature intricate, complex and full of challenges. Sedgwick is well-versed in taking care of our clients and consumers in the face of the world's largest and most complex losses. With responsive risk management, technical loss adjusting and claims management expertise, we are ready to quickly respond to losses in any industry.

Our specialist groups have expertise in major and complex loss management in several fields including:

- Agriculture/farming
- Aviation
- Business and practice interruption
- Construction
- Cyber/technology
- Energy/mining
- Entertainment
- Environmental
- Food and beverage
- Hospitality
- Manufacturing/industrial
- Public entities
- Real estate
- Renewables

In addition, ongoing professional development through formal training programs and mentoring ensures knowledge sharing between colleagues. We have a strong culture of hands-on learning, so our team always has access to someone who has been there and seen it before.

## Global solutions, local expertise

Sedgwick can help you centralize and simplify your global strategy for loss adjusting and beyond. With experts in 80 countries around the world, clients can be assured that we are familiar with each territory where we operate and will apply local knowledge and expertise to every claim. Our experienced claims professionals have the technical skills and in-depth sector knowledge to mitigate and resolve all types of claims.
