

# Financial risks

## Global solutions. Local expertise.

*Our goal is to make loss adjusting a positive experience for the insured and for it to add value to the insurance company, based on the combination of a highly qualified human team and the market's most advanced technological innovations.*

### Economic loss

We assess loss of profits in industry, trade and ALOP in civil work.

### Valuation of intangible assets

We assess businesses and other intangible assets, whenever recovery following an accident turns out to be impracticable.

### Fraud & Employee Fidelity

Alongside the legal department, we investigate and analyze cases of employee fraud and disloyalty.

### Stock loss quantification & valuation

We review systems and quantify stock loss.

### Litigation support

We provide audit services for procedures and systems and assess diversions of funds.

## Leading global provider of technology-enabled risk, benefits and integrated business solutions

Sedgwick is one of the world's largest global providers of claims management solutions and loss adjusting services. We strive to remove complexity from the process and offer a service with a unique combination of stability, innovation and technical capacity in a wide range of business lines.

### One point of contact

A common element of all the claims that we've successfully handled is that good communication is critical across all parties this is why we provide a single contact point supplying regular updates regarding the claim.

## Response capacity

Sedgwick is a leading global provider of loss adjusting and claims management solutions. That is why, with the help of local experts, we can respond quickly to the needs of our customers, anywhere in the world.

### Digital Strategy

The ability to deploy technology is a vital component in adjusting today's losses - whether it's drone technology to get early sight of damages at inaccessible sites or video and online reporting to assist our clients in undertaking quicker and more accurate loss assessments. There's no doubt that the power of people is enhanced by the smart use of machines.
