Event cancellation

sedgwick®

About Sedgwick

We control contingency risk by providing independent and impartial advice through market leading processes developed in partnership with industry underwriters.

Sedgwick is one of the largest loss adjusting, claim management and risk solution firms in the world. We employ more than 21,000 people, in 65 countries and have been operating for over 100 years. We work with business, insurers, brokers and policy holders to provide expert advice when a loss occurs.

In Australia, we employ close to 600 staff in 40 branches across the country. Our major & complex loss team employs more than 80 loss adjusters, each with over 15 years experience in their respective areas of expertise.

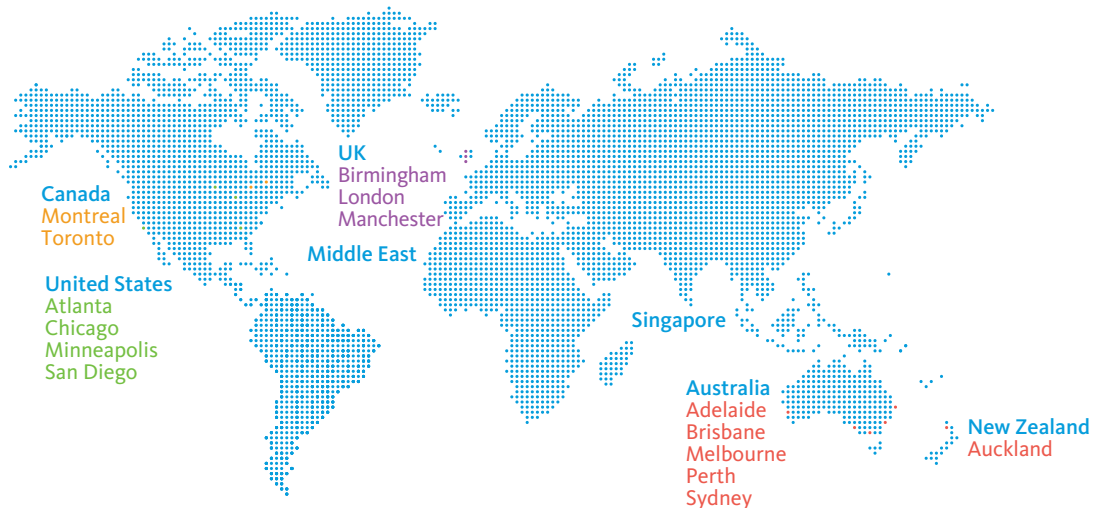

When you partner with Sedgwick, you can be assured that we have the right person to manage your claims.

Event cancellation

Planning an event can be a time consuming and costly process. Add to that, having to cancel the event due to circumstances beyond your control. We are here to help you with your event cancellation claim, and get you back to what's important – focusing on your clients and your next event.

Our approach

Sedgwick has extensive experience in handling a wide range of event cancellation matters.

Our experienced contingency adjusters are available 24/7 to assist your clients with expert advice to make decisions regarding cancellation of an event.

They ensure an educated and calculated decision to cancel is made. They can also assist with mitigation techniques and solutions to avoid cancellation entirely.

Should cancellation of an event be required, our Forensic advisory services division, will assist in calculating the financial loss.

They are appointed for their high level of expertise in financial loss calculations.

Our accountants work closely with the adjuster and event organisers to ensure a financial loss is accurately represented and clearly understood by all parties.

We provide a critical level of support to ensure claims are calculated in a fair and speedy manner.
