

EXPERT SPOTLIGHT

Tonya Scheuerman, *Senior Equipment Consultant*

MEMORABLE EXPERIENCES

As an equipment consultant, the most memorable experiences are when we identify and propose recovery solutions for equipment losses that are cost-effective, time-sensitive and help business owners preserve their customer base.

WE OFTEN PROPOSE SOLUTIONS THAT INSUREDS, THEIR VENDORS AND THE ORIGINAL EQUIPMENT MANUFACTURER HAVE NOT CONSIDERED.

Coming up with unique solutions to get equipment back to its pre-loss condition is rewarding, and our clients and their insureds are always grateful for our help in getting operations back on track.

CARING COUNTS

I show how caring counts by working to achieve the best possible outcomes for our clients. One way I do this is by connecting resources within Sedgwick and EFI to offer our clients comprehensive solutions.

This collaborative approach

allows us to leverage our collective expertise to better meet their needs.

I also regularly seek feedback from colleagues and clients to see where I can improve and be a strategic partner. This commitment to growth helps me continuously drive results and take better care of my clients.
