

Global marine and transportation claims services

At Sedgwick, our global marine and transportation team works as an extension of each client's overall claims management program, offering a range of third party administration (TPA) services and field surveying solutions. Our experienced adjusters, combined with comprehensive field services, help reduce our clients' program administration costs, while maintaining quality service.

Comprehensive services

Sedgwick has one of the largest and most experienced teams in the industry with 210 marine and transportation experts worldwide. Our TPA services include:

- Claims management
- Loss control
- Subrogation/recovery

We also provide field surveying services and our team can assist with several types of claims including:

- Marine/transportation liability
- Cargo
- Hull and machinery (commercial ships)
- Yachts (personal)

Key advantages

- Adjusters and surveyors with over 25 years of experience in marine and transportation claims management
- Able to help clients anywhere in the world quickly with expertise in local laws, practices and customs related to marine/transportation claims
- Field reporting completed within 48 hours and preliminary survey reports within 72 hours
- Strong relationships with major ports, terminals, ship owners, and road and sea carriers help expedite the claims process

Our services also offer additional benefits including:

- Streamlined response
- Single point of contact for clients and insureds
- IT support, including customized loss runs
- Financial management, including check issuance if requested
- Account familiarity increases speed, efficiency and consistency
