

Auto damage 'photos only' solution

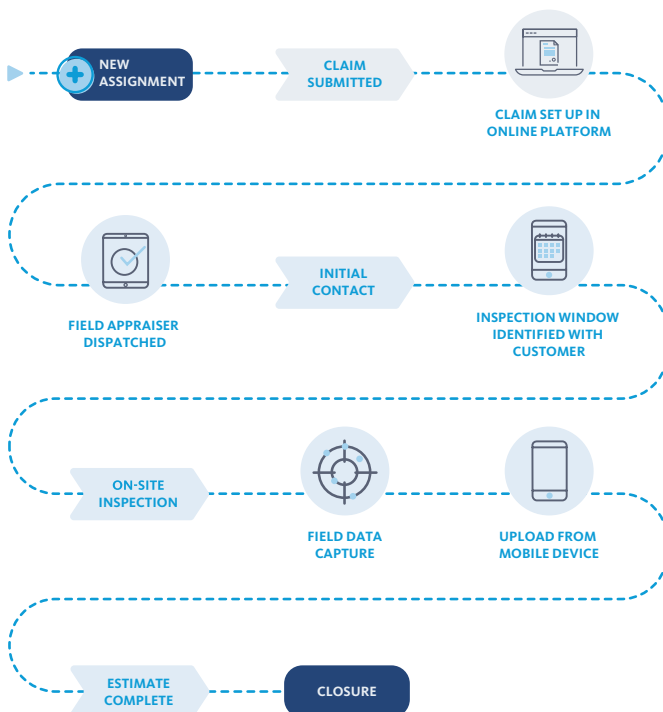

When an auto incident occurs, we provide quality appraisers to inspect the damage, take photos and document key claim-related information.

How it works

When a client reports an auto claim, it is immediately assigned to a field appraiser in the appropriate geographic location. Once on site, the appraiser inspects the damage, gathers necessary photographs and documents any additional details.

Field inspection process

Benefits

- Comprehensive coverage
- Flat-rate pricing
- Best-in-class cycle times
- The auto damage photos only solution can be applied to any type of field inspection
- Experienced auto field appraisers
- Integrated reporting capabilities
- A dedicated account management team

Industry-leading contractor network

Sedgwick has built a network of more dependent auto appraisers across the United States. The requirements for the appraisers in our network include the following:

- Minimum requirements - 1099 with tax ID, InsuraState license (if applicable) and state license (if applicable)
- Preferred requirements (mandatory in most locations) – ASE and I-CAR certifications, a minimum of three years in business and a minimum of five years of experience
