

# Disinfection services

EFI Global is actively aiding our clients in their response to the COVID-19 pandemic. We have formed a nationwide task force of certified industrial hygienists and industrial hygiene experts to develop business-specific cleaning and disinfection protocols, provide disinfection contractor oversight, and assist with business preparedness and continuity planning. As an industry leader in industrial hygiene consulting, EFI Global has combined our decades of collective industry experience and the most up-to-date CDC cleaning and disinfection protocols to support our clients' developing needs during this challenging time.

## Comprehensive solutions

- Preparation of business-specific cleaning and disinfection protocols for implementation by restoration/disinfection contractors
- Cleaning and disinfection oversight, project management and documentation that cleaning activities were performed according to the Centers for Disease Control and Prevention (CDC) best practices
- Planning guidance, including possible engineering, administrative and operational controls to help identify potential risks and appropriate measures to mitigate and control these risks
- Training to help educate staff on how to reduce the spread of the virus
- Review and update of existing business continuity plans to address specific COVID-19 risks

## Service expertise

EFI has extensive experience providing environmental health and safety consulting services in sensitive facilities such as hospitals, nursing homes, government facilities and public and private schools throughout the country. EFI understands the risks and challenges posed by COVID-19, and is well-qualified to develop protocols for cleaning and securing workplaces affected by it. EFI's network of contractors, with extensive experience in cleaning and disinfecting buildings, are readily available to assist. EFI's industrial hygienists and network of contractors are already serving clients during this crisis, all in accordance with CDC and World Health Organization guidance.

## About EFI Global

Highly regarded as an industry leader on multiple continents, EFI Global demonstrates its ability to provide skilled and experienced professionals and technical specialists to carry out in-depth investigations, deal with a full range of losses and provide immediate response to clients worldwide. Our forensic engineering, fire investigation and environmental service teams around the world share a dedication to technical excellence, ensuring timely and accurate work and ultimately demonstrating value to our clients.
