

Sedgwick MCO and Corvel performance comparison

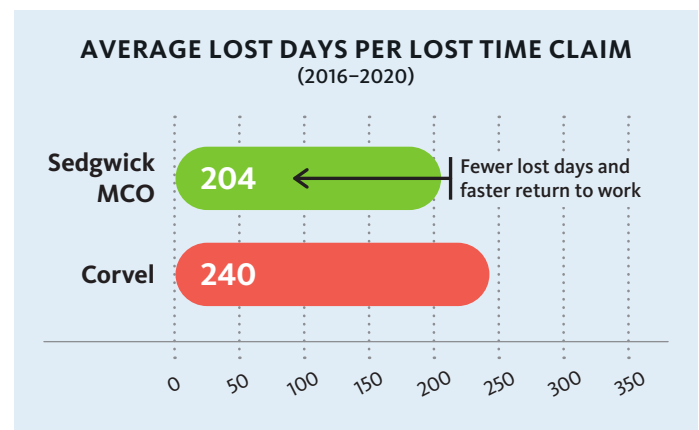

Sedgwick MCO is Ohio's largest managed care organization and we handle more than half of all workers' compensation claims in the state.¹ We have extensive experience guiding Ohio employers and injured employees through the managed care process.

Lost days are the most significant cost driver in workers' compensation claims, and one of the best predictors of claim costs and premium impact. A managed care organization that consistently facilitates a faster return to work for injured employees positions their clients for success. Sedgwick MCO averaged 19.4% fewer lost workdays per claim than Corvel.¹

Consistent with lower average lost days per claim, Sedgwick MCO also outperformed Corvel in the average total cost per claim.¹

Preventing lost time claims is an important goal, but getting the back to work is still a priority after a claim becomes lost time. Putting a stop to compensation and reducing reserve costs depends heavily on controlling lost days. Sedgwick MCO outperformed Corvel in average lost days per lost time claim by 18%.¹
