

Sedgwick MCO and Genex performance comparison

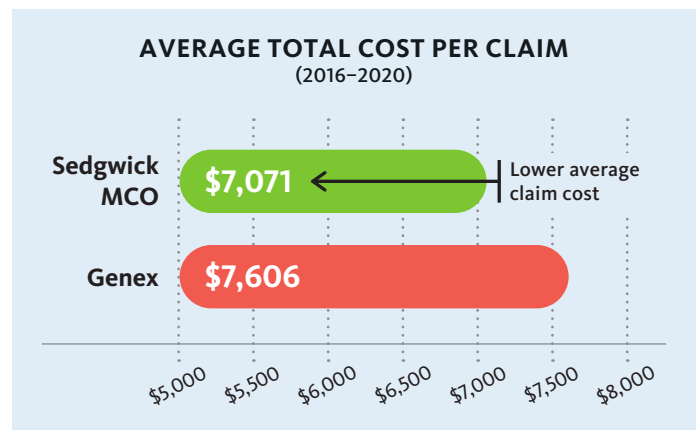

Sedgwick MCO is Ohio's largest managed care organization and we handle more than half of all workers' compensation claims in the state.¹ We have extensive experience guiding Ohio employers and injured employees through the managed care process.

Lost days are the most significant cost driver in workers' compensation claims, and one of the best predictors of claim costs and premium impact. A managed care organization that consistently facilitates a faster return to work for injured employees positions their clients for success. Sedgwick MCO averages fewer lost workdays per claim than Genex.¹

Medical expenses can greatly increase workers' compensation claim costs. Scrutinizing medical treatment plans helps control the impact on employers. Sedgwick MCO has lower average medical costs per claim compared to Genex.¹

Consistent with lower average lost days per claim, Sedgwick MCO also outperforms Genex in the average total cost per claim.¹
