

Sedgwick MCO and Genex *performance comparison*

Accumulation of lost workdays is a key driver of claim costs, impacting premium rates, savings options and workplace operations. A managed care organization that consistently facilitates a faster return to work for injured employees positions their clients for success. Sedgwick MCO averages 53.1% fewer lost workdays per claim than Genex.¹

A shorter duration of medical activity is an indicator of effective medical management and declining reserve costs. We negotiate directly with medical providers to help drive faster claims resolution. Sedgwick MCO outperforms Genex by 19.7% in the longevity of active status in current active claims.²

Consistent with lower average lost days per claim, Sedgwick MCO also outperforms Genex in the average total cost per claim.¹
