

# Paintless dent repair services

*Was your vehicle damaged by hail during the recent storm?  
We're here to help.*

When hailstorms occur, the damage to vehicles can be extensive. The repair process can be time-consuming for you, and challenging for body shops not equipped to handle these repairs.

Sedgwick is ready to provide a hassle-free, seamless customer experience, offering an innovative repair solution that will help you secure an accurate estimate and have your vehicle repaired — all in one place.

## Bringing expert services to you

We use state-of-the-art technology that completes a 3D scan image of your vehicle damage, providing a precise estimate the first time.

Following the damage assessment, you can choose to schedule the repairs in the same location at a time that works best for you. You can be confident you'll receive prompt, concierge-level service — and our repairs include a lifetime guarantee for as long as you own the vehicle.

## Streamlining the process

State regulations mean you have the right to choose where your vehicle is repaired. Sedgwick's auto repair solutions team can offer several big advantages:

- **Faster repairs** – Dedicated technicians and an advanced repair process mean we can reduce the time you're without your vehicle.

- **Rental cars available on site** – We offer rental car pick-up and drop-off options, helping you to get back on the road as quickly as possible.
- **Industry expertise** – Our service teams have more than 40 years of combined experience estimating vehicle hail damage and completing repairs.

To schedule repairs, call 844.687.1093 or email [autoinfo@sedgwick.com](mailto:autoinfo@sedgwick.com).

## Delivering customer-focused solutions

At Sedgwick, taking care of people is at the heart of everything we do. We'll provide an innovative solution to help streamline the vehicle repair process — and make your life easier.
