# OVERVIEW

## TAILORED SERVICES

We are flexible and creative with our TPA services. Each programme we deliver is unique. For large-volume, low-value claims, we offer centralised call centres, desktop claims handling expertise and payment management to validate and process claims. We also provide management information back to our clients.

But it does not end there. If there is a specific need, we will configure a solution to meet it. We call it ‘creative innovation’.

Our claims services are supported by a global network of loss adjusters who have the specific local, regional and jurisdictional expertise needed to assist our clients.

Our core services include:

- Property – home, commercial, real estate and home emergency
- Liability
- Motor – accidental damage, third party property and injury
- Marine
- Accident and health
- Lifestyle – warranty and ‘gadgets’
- Financial lines
- Travel

We also offer key supporting services such as:

- ✓ Building repairs
- ✓ Supply chain management
- ✓ Recoveries
- ✓ Fraud investigations

Sedgwick’s TPA services are supported by our own global network of loss adjusters, who can be quickly and seamlessly deployed.

# CLAIMS SERVICES TO FIT YOUR NEEDS

---

Asking an external organisation to deliver a core service, such as claims management, is a leap of faith for any business.

Every claims management process needs a different approach, so our third party administration has to be different too. It has to be innovative, and creatively so. To get it right, we consider some important questions:

- Your business' claims needs are unique. How will our partnership work?
- Will the service still feel the same to you and your customers?
- How do we ensure the culture and values of your organisation are upheld?

## A COLLABORATIVE APPROACH

We're in this together, and we're ready to listen. With global expertise, deployed locally to your business, Sedgwick can tailor TPA services to fit your precise needs.

We achieve this through a collaborative approach. Our dedicated will team consult with you to define and design your claims management model. We will learn your workflows and processes, and gain an understanding of your people and your customers.

- Clearly defined performance objectives
- Tools and technology platforms tailored to your needs
- Multilingual and multi-currency treasury services as required

# OUR METHODOLOGY AND PEOPLE

**We build bespoke claims management programmes that integrate technology, people and brands. Or we use highly effective adaptations of our existing TPA programmes.**

## A THOUGHTFUL APPROACH

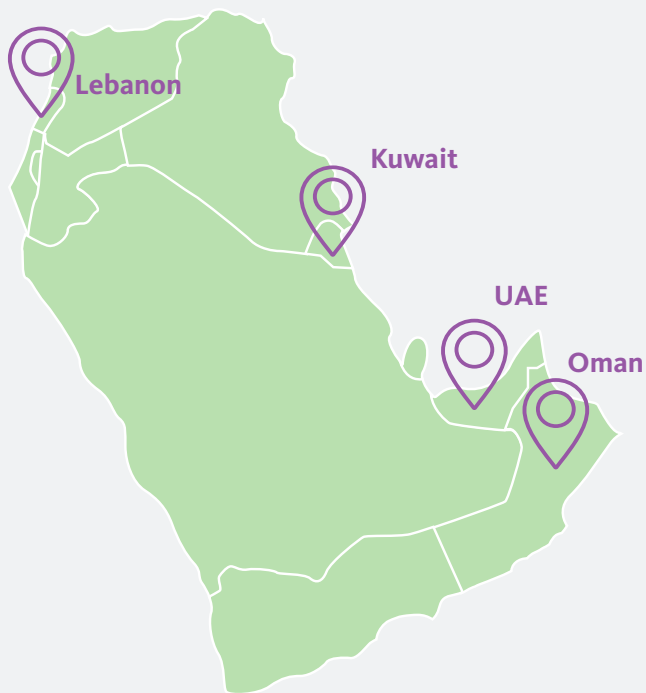

With locations across 65 countries and nearly 27,000 colleagues globally, our TPA services can be deployed swiftly and professionally.

We take the time to listen to our clients' needs and ensure we provide a solution that streamlines the process and meets your business requirements.

Where required, we will deliver a programme unique to your business, or you can choose one of our existing TPA solutions. We don't prejudge and we don't presume.

Our claims management technology allows us to meet your organisation's needs and deliver continual improvement.

## RESPONDING TO CLIENT NEEDS - A CASE STUDY

-  A global client needed urgent TPA services for its Middle Eastern claims management operation. There could be no disruption to claims handling, the brand experience or customer satisfaction. **1**
-  How did we do it? We became them. We provided the people, the technology and the creative thinking in order to meet our client's vital requirements. **2**
-  Systems were improved and processes were automated using a remote programme. From a standing start, we were processing 18,000 claims within three months. **3**
-  Not one customer was adversely affected and vastly improved results were delivered. Our client's brand and cultural integrity was only enhanced in the region. **4**
