

THIRD PARTY ADMINISTRATION

As the world's largest claims management company we provide end to end claims solutions including the management of data and payments, whilst understanding local factors such as; culture, regulation and legislation.

Third party administration (or TPA) is the outsourcing of claims administration functions which are traditionally performed by either an insurance company or a self-insured corporate entity.

Our approach

TPA engages our highly skilled claims specialists and industry leading technology to provide solutions that are:

- **Flexible** – one solution doesn't work for every business
- **Engaged** – we take the time to understand your business and how you operate
- **Cost-effective** – we reduce claims settlement costs and your operational costs
- **Integrated** – our service has been developed to complement expenses
- **Empathetic** – we are always sympathetic to our customer's needs
- **Innovative** – we constantly re-evaluate our solutions to maintain the best results
- **Scalable** – with 600 employees across 10 global hubs, we can rapidly up-scale to cover periods of peak demand.

Tailored just for you

We provide:

- Your own dedicated hub and account manager
- Flexible notification options
- Full or partial claim outsourcing options
- Domestic and cross-border capability
