

EXPERT SPOTLIGHT

Leanne Brumby, Senior Environmental Consultant

MEMORABLE EXPERIENCES

I once investigated a claim where an elderly couple dealing with multiple health issues experienced a major oil loss within their property. Usually, we would arrange alternative accommodations when a property is damaged like theirs. However, knowing they wouldn't be able to travel easily, we did everything we could to keep the property safe during our work so they could stay in their home.

I'LL NEVER FORGET HOW GRATEFUL THE COUPLE WAS FOR OUR TEAM'S HELP IN MAKING THIS DIFFICULT SITUATION A LITTLE EASIER FOR THEM.

CARING COUNTS

In my daily work, I make it a priority to approach every project with empathy and resilience. Each claim situation is unique and comes with its own set of challenges.

“*By taking the time to carefully understand my clients' needs, I'm able to provide thoughtful solutions and deliver the best possible outcomes.*”
