

Unemployment claims management and tax services

Without a centralized, consistent process for managing unemployment claims, it can be challenging for employers to control costs and monitor all aspects of their program. At Sedgwick, we offer comprehensive claims services and expertise to help our clients every step of the way.

Our unemployment experts are focused on providing the best possible customer experience. Our primary objective is to deliver high-quality service to make your life easier while helping you achieve optimal results.

Our services

We develop tailored, cost-effective unemployment programs for clients. Our services include:

Claims management – Our examiners and program managers collaborate with customers to ensure a consistent, cohesive claims management strategy that best fits their unique needs.

Hearing representation – Overall, hearings require the highest degree of customer engagement in the entire unemployment process. As such, our customers receive the most robust level of care in the industry at this stage for each and every hearing.
